

## Martha Wanjira

## Kenana Knitters

Martha has been with Kenana Knitters for the last 13 years having joined us in 2005. She was encouraged to join the knitters by her mother who was also a knitter.

Martha is a mother to 4 children, 3 boys and 1 girl. Her oldest child Elizabeth who is 14 years old suffers from severe physical disability and epilepsy. When she initially started working at Kenana Martha was able to come to work with her daughter. This was a welcome relief from the drudgery of long days spent at home as the primary care giver for her daughter. With her income from knitting she is able to employ someone to assist with the work at home and in the care for Elizabeth.

*I want to thank Kenana for giving me an opportunity to become a knitter. The homeopathic clinic has been a great support for my daughter's illness. Through Kenana I am able to obtain medicine for my daughter's epilepsy. I am truly grateful to Kenana Knitters.*
